

Since 1975 FGT has designed and manufactured industrial HVAC systems in Oil & Gas area, representing the Made in Italy excellence to the international markets. Thanks to qualified engineers and skilled workers team, we have always been committed to strengthening collaborations abroad. **In the last ten years** we have successfully completed **164 projects in 34 countries**, reaffirming our expertise and reliability on global scale.

164 commissioned projects

34 involved countries

Here are some of the prestigious companies, leaders in their respective industries, with which we have co-operated in the last 10 years. **From 2014 to 2024**, they've committed us with over **105 projects** for the design and construction of industrial HVAC systems. This achievement reflects the trust they have placed in our expertise and in our solution excellence, designed to meet the needs for their strategic projects.
